ABOUT CALIFORNIA UMBRELLA

California Umbrella has been proud to serve you and your shade needs since 1946. The world has changed so much in that time, but our commitment to excellence has only deepened. To meet the demands of the changing market, we have several devoted factories overseas with well over 1 million square feet of production space, all to serve your manufacturing needs. The vast array of options for OEMs, customization, and developed products that our capabilities allow for, can fulfill almost every need you may have for a shade product. Our experience in sourcing materials and fabrics is second to none, so we can provide you with more options, and greater capacity, to make even the most demanding projects seem simple.

In addition to our manufacturing support, we operate a spacious fifty thousand square foot domestic warehouse and assembly center built to handle service and logistics for all your outbound orders, including smaller runs. Our main production goal is to serve you when you need it, so our team is always ready to discuss a project or details of your product and business goals. Our domestic warehouse program is all encompassing, offering you flexibility to plan and create. Whether the project is for just 1 Umbrella in a backyard bistro table, 200 umbrellas to a magnificent resort, or 200,000 umbrellas for a multi-national retailer, With California Umbrella, when it comes to shade, you can Relax, you’re covered...

ABOUT US

As a brand that celebrates 70 years providing shade products into the market, we are proud of our tradition of innovation that has always led the way, paving a path to success that leaves us with a legacy unmatched in the industry. We invented the revolutionary Collar Tilt feature, and set countless trends in both fabric and frame design aesthetic. Our passion for shade continues unbounded by convention even today as we introduce patented new products that refine and reshape your interaction with shade and comfort in a space.

We cover the complete spectrum of shade umbrella solutions and materials, providing every sun drenched setting you can dream up with just the right mix of form and function. Open up your environment with a wide spanning cantilevered Umbrella from our CALI series that offers you up to 380 sq. ft. of shade area as it rotates 360 degrees on its mast. Make a classic statement with the retro styling of our Pagoda umbrella, injecting just the right amount of playfulness into a refined and luxurious outdoor setting. Wreak havoc on the elements with our 100% fiberglass material framework found on several series of products that have been designed to resist when the elements come calling and remain in your service.

We invite you to discover for yourself why we’ve been trusted as the source of shade to unwind and enjoy the outdoors with for 7 decades, because no one can match our Experience Under the Sun.
Thank you for considering our products for your home or business. We are excited to build your umbrella, so to help you begin the process here is a quick guide to this catalog, and placing your order. We encourage you to call us with your questions, but we have tried to place as many of the necessary product and ordering details in this book as possible, so you can reference back to it whenever you need. We look forward to seeing what you come up with, and to servicing your order.

Once you select an umbrella you will want to place an order for it, but how do you communicate the options you want expressed on your order without spending time describing your selections? To order an umbrella from us, you simply need to compose the item using our model number method. The information for all the choices you will make, are coded into our model number options, giving you endless choices for how to combine features and create a unique shade.

**HOW TO ORDER**

Our Umbrella models start with a letter name that is associated with the materials and specific features for that design. The numbers and information that follows the series all refers to additional details like canopy size, frame color, and fabric. In several cases we will have multiple canopy sizes available within 1 series, and then multiple frame finishes beyond that. The series name tells you that the materials and features of that umbrella are the same no matter what the size of the canopy is, or which colors you choose for frame and fabric. For example, our GSCUF Series, is available in 3 different canopy sizes and several frame finishes, but all 3 sizes feature the same construction; high grade aluminum, durable fiber-glass ribs, and the original easy-to-use collar tilt feature that California Umbrella introduced over 5 decades ago.

**FABRICS**

All Umbrellas are comprised of 2 essential components that are made independently of one another, and then joined to create the finished product. The choice of fabric has the greatest impact on the overall look, performance, and value of the finished product, so choosing a color to enjoy, and an appropriate fabric type to use, is very important to the overall utility and enjoyment of your umbrella. Now that you know how to tell us about the frame you want, it's time to pair it with a selection of color and fabric type. After the series, size and frame finish are selected, the fabric code is listed to complete the model number for your desired umbrella. In our line of products we utilize 3 types of fabrics that all come in many colors or patterns for you to choose from. The three fabric types are: Olefin, Pacifica, and Sunbrella. The color code utilized tells us both the type of fabric and color of fabric that you wish to complete the item with.

Olefin Codes are typically (F##)

Pacifica color codes are typically (S##)

Sunbrella Color codes are typically 4 or 5 digit numbers (ie. S 4010, 8013)

Refer to our Fabric Guide for the differences in value, performance, custom cover designs, and for all the choices available.

**SIZE**

After the series name, our model number indicates the size of the canopy with a number code. The most highly used are as follows:

- 758 = 7.5ft x 8 ribs
- 908 = 9ft x 8 ribs
- 118 = 11ft x 8 ribs

**FRAME FINISH**

After the series and size, we want to know about the color of the pole your umbrella should be finished in. While we have many options to choose from, each product page in this catalog details what frame finishes are offered for the individual models you are looking at. Some items are only available in 1 color, while others have 4 frame finishes you can choose from. Frame finishes available on our domestic supply of products are as follows:

- 001 Anodized
- 002 Silver Anodized
- 117 Bronze
- 174 White
- 201 Black
- 003 Black
- 004 Silver Black
- 017 Eggshell
- 900 Champagne
- 913 Sand
- 102 Black
- 103 Black
- 104 Black

Residential Collection

Our collection, California Umbrella for Home, is a celebration of the outdoor room. Designed for convenience, value, and performance, these shade products bring the full weight of our experience to your table. Here are a few highlights to look for when you think about bringing home the Shade...

Being a California company, born and bred, we have our share of long summer days. California Umbrella pioneered and developed the original and revolutionary Collar tilt feature to tilt your umbrella to any degree you wish while you enjoy the afternoon and evening outside. We still boast the widest tilt degree in the Market, allowing you to stay outside longer with your family and friends.

From the sunny coastline to the inland mountains, deserts, and valleys, California offers up some of the most majestic geography in the world. But as any native Californian will tell you, all this natural beauty gives way to the greatest challenge to the longevity of a shade product: Wind. At California Umbrella, our experience with the Windy Santa Ana’s gave way to another industry leading innovation in our Fiberglass products. We are proud to offer the commercial toughness of Fiberglass in our flagship umbrella series.

Designed to enrich your experience at home is our CALI series of Cantilever umbrellas. Tilt, twist, turn, and multiply the design options for your space with the expansive versatility and strength of these huge and dynamic Shade Structures!

We’ll see you outside…
The Evolution of an Original

When California Umbrella introduced the Sun Master Series, Eisenhower was living in the White House and Mercury Astronauts thrilled the world with unheard of breakthroughs in the cascading race for space dominance. An entire generation of baby boomers set out to redefine the world and take on conventions as the world sped into a wild future. In this exciting era, California Umbrella introduced a smooth and easy tilting frame that promised years of carefree comfort in the sprawling backyards and pool sides taking over the American leisure-scape. A symbol of simple pleasure in enjoying the outdoors made for an incredible rise in a developing casual furnishings industry and a true original was born.

Today, it is a re-imagined original, with the same deft operation that conquered patios a generation ago. Now blended with the results of modernization developed in the manufacturing age, with Fiberglass materials that embody contemporary flexibility and resilience in the face of challenging winds and constant change. Take on the sun and master the shade with a brand new original. The Sun Master.

A midsummer evening view from almost any perch in California bathes the senses in the golden hues of a western sunset. California is called the Golden State for many reasons, but there’s no arguing that the name is well earned as you take in the view of a waning day over the Pacific, and this is where the inspiration for the Golden State series meets you.

The revolutionary Collar tilt design that made California Umbrella a standard, endures as a continuing benchmark for effortless operation. Chase the sun to the horizon with the continuous motion of the canopy as you wring out the last bit of golden light from the day, shading the low hanging sun from your evening.

No matter where you make your escape, bring a piece of our sky with you, delivered by the Golden State Series.

The Test of Time

Spanning the length of the state, the Pacific crest trail covers every part of California’s incredible geographic and cultural diversity. Taking on the journey through this meandering trail will reveal deceptively rich lowland deserts as well as sky scarping giant sequoias shading the heart of the most majestic national parks. You can see the urban sprawl and the natural wonder of the state from border to border, and discover just what makes the west such an enduring representation of America.

Likewise, our Pacific Trail series umbrellas provide the timeless aesthetic of the Market style with all the essential features of a time tested staple of the shade industry we inspired. Fully robust framework with crank lift and tilting features supporting a range of canopy styles and fabrics at compelling value, it is the essential shade product standing the test of any use case. From end to end, the simple beauty of complete coverage to businesses and consumers is the hallmark of the Pacific Trail series and California Umbrella.

A famous thoroughfare built on thousands artful dreams as well as the paragon of western iconography, a California Sunset. Enjoying both leaves no 2 experiences suffering from a repeat performance, but rather a consistently enthralling sensation of discovery from moment to moment.

When you use our Sunset series umbrellas you'll get consistent and effortless performance, and an experience that in its novelty, feels unexpected each time. A smoothly performing crank lift feature offers an expected convenience delivered to you by California Umbrella. As the Sun quickly sets itself upon your afternoon, suddenly casting its light across the sky and tricking hidden colors out, retaliate with an equally hidden trick of shade. Cranking your umbrella a little more tilts the canopy against the horizon with an operation that delights in its simplicity.

You'll always know you have more time to enjoy your outdoor space, keeping the sun at bay a bit longer, but each time you use our Sunset Series umbrella it will feel like a new experience.

More Than a Name

Our shade tradition is not born in a State; it comes from an irrepressible culture. The weather, the people, the diversity, and the largess of life found throughout, makes California a place where limitations or conventions don’t last long. Surf in the morning, Ski in the evening, sample world famous wines or socially viral food trucks serving remotely accessible cuisine. California is more than a name or a place.

A CALI Series umbrella is more than an Umbrella. Cantilevered framework eliminates a limiting center mast and opens up the freedom to design an ever expanding set of uses for your shade. Rotating 360 degrees on its side mounted mast, the CALI series projects a shade profile around itself with over a 380 square foot coverage area, bringing together separate elements of an outdoor room with a unified shade solution. Reaching high into the air, the expansive canopy of the CALI series can shift back on the mast to screen out the setting sun with the lowest canopy position available in our line, walling off the evening sun and leaving a gorgeous sky above to bask in as the day ends.

By setting itself apart as more than an umbrella, the CALI series represents the spirit of our brand and what inspired it.

The California Umbrella for Contract Collection is our proud offering of Shade products designed to serve the contract industry. Simple, Traditional, and with the strength to withstand the rigors of heavy usage, that is the hallmark of every item in this collection. When you design the perfect outdoor space, these products will make the finishing touches the most gratifying.

Relentless pursuit of performance and value in our products has yielded a wonderful set of results for anyone looking to achieve the classic wood market umbrella look. Our Wood Market Umbrella Series has been upgraded to deluxe fiberglass hardwood! Beautiful finishing, dramatic flourishes, and outstanding performance are just the beginning when you select an umbrella from this collection. We are calling it our Flex-wood series, and you will love how beautiful and functional it is.

Fiberglass is well represented in the California Umbrella for Contract collection of shade products. You will find the most robust fiberglass components in the industry along with stainless steel hardware, high-density resin, and zinc-plated hubs, ensuring that the space created with these products can be enjoyed by as many users as possible. Made for your business or for your home, our Contract umbrellas provide a designed toughness which rejects the idea that commercial grade shade has to be over-priced in order to be over-built. Look ahead to find out what the ultimate commercial umbrella program really looks like...
From the missions that seeded California's modern day roots, through the gold rush, the oil boom, and the daily revolutions built in the Silicon Valley, the history of California is built by people that were driven to create something.

The Venture Series is made to serve the enterprising spirit in our line of products. It is the essential commercial umbrella, bold in its materials, classic in its appearance, and driven to perform. Starting with a double wall thickness to set a robust foundation, everything in the Venture series is designed for work. Stainless steel hardware to all the finishing details, zinc plated rib hubs, and a canopy supported by half inch thick, high density plastic extruded Fiberglass ribs, it all makes for a series of shade products that endures any challenge and delivers shade beautifully.

Wherever value and performance is met with the need for flexibility and strength, we offer the Venture series as your shade solution.

A Natural Wonder

Forming the backbone of the state of California is a monument to size and strength. The Sierra Nevada mountain range is home to the highest peak in the continental United States, National Parks, Volcanoes, and Forests made of the most massive living things in the world. The Sierras stand so imposingly that they impact the weather of the entire Southwest, soaking up the elements to hydrate farms that feed people all over the world.

The Sierra Series by California Umbrella is a monumental shift in the expression and beauty of a Market Umbrella. Traditional and timeless describe the coveted aesthetic of the wood market style parasol, a design that has been around as long as man-made shade has been a concept. With Sierra, we now introduce molded fiberglass framework that is finished with the warmth and character of a subtle wood stain, the hardened longevity of modern materials, and the embellished styling of an artisan piece. The resulting product is a refined series of umbrellas that set an imposing standard for the natural beauty and strength of a wood market umbrella. For every application, the Sierra series stands alone.

The Sierra Series

The conditions are harshest at the timberline, so that is where the strongest and toughest trees root themselves and grow. This is why the oldest and largest specimens can be found in these higher elevations. California Mountains boast the widest collection of these giants and inspire our most robust collection of Wood Market Umbrellas.

In the Timberline series we’ve sourced the solid 2 inch wooden masts that stand firm in the wind, and bolstered them with ¾’ stout fiberglass ribs that perform in conditions not suitable for other shade products. The elegance and beauty of these overbuilt specimens is incomparable, they stand as shelters of shade even in the harshest environments.

The Traditional Standard

California's forests are famous the world over for their assemblies of the most majestic trees and diversity. The hundreds of groves of Redwoods and Sequoias that cover the coastal forests and granite faces of the Sierras give us our inspiration for the Grove Series.

Wood Market umbrellas are classic, and the Grove series gives you all the tradition and attraction they have always offered. The sourced hardwoods are subtle grained and finished to provide the warmth and character expected from a wood product. The Grove series comes in sizes across the umbrella spectrum to mix and match in any combination.

An Excess of Abundance

The bountiful opportunities and resources offered by our state make it a dream destination. Lavish lifestyles and opulence are woven into the fabric of the culture, and broadcast around the world in the images of our art and media. The excess isn’t skin deep, it starts with the embarrassment of natural riches and culminates in the way we’ve dressed our cities with extravagance for the world to see. With the constant rebirth of landmarks, architecture, art, and technology, a true reflection of California is in the depth of its abundance.

The Allure Series demonstrates that attraction and excess are the hallmarks of quality. We’ve built this series using a beautiful and excessively robust stainless steel mast. The heft and finish of this single piece of refined steel represent a luxury of indulgence, delivering clean and contemporary lines from a deftly overwrought piece of natural material. Above it all is a flexible canopy of fiberglass ribs that dares the elements by its span and resistance. Taken together, the Allure series of the California Umbrella collection delivers classically understated aesthetics to your space, sumptuously emboldened by an irresistible abundance of performance.

# OCEANSIDE SERIES

**Focused on Performance**

The association that California has with its beaches is renowned and established by generations of sun seekers. With the ocean looming so large in the culture of California, the connection to it forms an essential part of our identity. The relentlessly moving salt air and waves, toiling under an intense sunny gaze, both lure and punish in equal measure.

Our Oceanside Series is perfectly adapted to thrive, exposed to the stark beauty of the elements. We’ve designed this collection completely with high density reinforced fiberglass material. Light and flexible, it deflects the energy of movement so that a gusty breeze fades to obscurity. Dense and strong, it braces against the beating sun and the barrage of corrosive elements to stand beautifully undisturbed in service. Defying conventions, the 7.5 foot model can extend or contract its mast to fit into any need or space, so that one shade can shelter a casual afternoon lounging in the sand, or an installation of bar height tables for a crowd of customers.

When you spend as much time interacting with sun drenched shores as we have, focus turns towards performance. What follows is the Oceanside Series.

California Umbrella is building a new wave of customization possibilities by turning to a time tested principle in the efficiency of manufacturing: Standardization. Most all of our 7.5, 9, and 11 foot octagon shaped market umbrellas are made to receive a standardized cover. This offers our customers an unparalleled opportunity to re-imagine their shade aesthetics. This simple solution to a problem found across the shade products industry is changing the way shade consumers think about their design choices.

Replacement covers for our umbrella frames are an easy way to change out the décor of a space from season to season, or for special occasions. If the need arises to replace a canopy, our standardized cover sizes mean that you can change materials or colors and patterns and continue using the fantastic Umbrella frame in your service.

If you have a Market style Umbrella from our line, you can store a spare canopy, or stock different colors to support your favorite teams or throw a themed party, all of our production canopies are made to be interchangeable.

Swapping out a canopy is a simple process where you remove the pockets of the canvas from the rib ends, drape a new cover onto the frame and place the new pockets back over the rib ends. In a matter of minutes a commercial application with dozens of umbrellas could be completely refaced at a fraction of the cost to completely replace perfectly functioning Umbrella frames. Bring your most creative design ideas to the table, and don’t just buy an Umbrella, truly embrace a shade solution.

To order—
Select canopy size and use the model number for a cover. (C758 for a 7.5” cover, C908 for a 9” cover, C118 for a 11’ cover). Then add the fabric code for the color and fabric type of your requested cover.

SUNBRELLA 101

Sunbrella fabric is an instantly recognizable standard of excellence in the world of textiles and with consumers. It has a beautiful performance, offering the widest array of color, pattern, and design all built with 100% solution dyed Acrylic canvas. We proudly offer a curated assortment of the most popular colors demanded by consumers, as express products that can be delivered within hours of a qualified order. We have also built a broad program of custom options that allow for a virtually unlimited design assortment. Sunbrella offers a 5 year warranty for all its Upholstery fabrics which are the most suitable for building Umbrella shades, but they also offer an Awning and Marine grade product that includes a 10 year warranty. We can build your umbrella with this material, but you’ll have to contact us for additional information. Included here is the Upholstery level fabric selection, sorted by our pricing levels and delivery service capacity.

SUNBRELLA EXPRESS

Sunbrella Express Colors fall under the category of premium Sunbrella fabrics offered with products that come with your choice of completed covers, which are made available at our California based facilities. Express colors ship out within 10 days and come in the following sizes on select umbrella frames: 11ft DWV umbrellas 9ft SWV umbrellas 7.5ft SWV umbrellas.

SUNBRELLA STOCK

Sunbrella Stock Colors are Sunbrella Fabric selections kept in stock at our California facility (subject to fabric availability) for production purposes. Umbrellas that fall within the Sunbrella Stock category have a ship out time of 15 business days with the umbrellas frames of all models.

SUNBRELLA CUSTOM

Custom fabrics for umbrellas can be made using many types of fabrics. California Umbrella is proud to offer a choice of the Sunbrella Custom fabric range for production of a new umbrella in all model options. Umbrellas ordered with these fabrics will ship out within 15 – 25 days based on availability of the fabrics only.

Sunbrella A Grade fabrics are the Outdoor and Furniture Grade fabrics of choice for most of the world’s best outdoor furniture manufacturers. Made up of solids and stripe patterns, the A Grade fabric offers tremendous choice along with great value. These colors are constructed to be more naturally fade resistant under prolonged sun exposure, so your shade solution stays beautiful for years of use and enjoyment.

Sunbrella AA Grade fabrics are enhanced to protect more sensitive color from fading under even the most extreme of sun exposure conditions. The colors in this grade of fabric are more sensitive to UV exposure, and thus require an increased protection built into the color process in order to ensure that your umbrella maintains the same vibrant look for years of usage. Included in this grade of fabric are some expanded options for special aesthetic weaves in the fabric, all of which provide unique design appeal to go with the peak fabric performance desired in an umbrella to stand up to all weather conditions.
**SUNBRELLA CUSTOM**

Custom fabrics for umbrellas can be made using many types of fabrics. California Umbrella is proud to offer a choice of the Sunbrella Custom fabric range for production of a new umbrella in all model options. Umbrellas ordered with these fabrics will ship out within 15 – 25 days based on availability of the fabrics only.

When you see the Pacifica Logo by one of the umbrellas in this catalog, that means that this umbrella comes with your choice of completed covers available at our California based facilities in all 20 fabric color selections. While supplies last, these finished covers will ship out with the selected umbrella frames within 10 business days.

Umbrella frames: 11ft DWV umbrellas    9ft SWV umbrellas    7.5ft SWV umbrellas

Pacifica, NEW by California Umbrella, is a solution-dyed polyester fabric that has been perfected for the use with our quality made umbrellas. The proprietary selection offers tremendous possibilities for color variations and performance shade fabrics. Pacifica fabrics offer:

• 4 year fade resistance warranty
• 4 year rot and mildew warranty
• 20 fashionable and popular color choices
• Domestic availability in 11ft DWV covers
• Domestic availability in 9ft and 7.5ft SWV covers
• The fastest lead time in the industry!

California Umbrella uses the finest Olefin to create 10 different color selections available for select 9ft umbrella models, wherever you see this logo, the umbrellas will ship out within 10 business days.

Umbrella Frames: 11ft DWV Umbrellas    9ft SWV Umbrellas    7.5ft SWV Umbrella

Olefin fabrics are an excellent fabric choice for customers looking to shade their space on a budget without sacrificing quality. Made with high durability synthetic Olefin fibers, Olefin fabrics offer improved fade resistance over lesser grade fabric materials like polyester and cotton without the added expense of acrylic canvas. Olefin fabrics are a strong value, so with some basic care they can give you several years of enjoyment. Olefin color selections match up perfectly with all the most popular colors on the market, so your shade solution is beautiful without breaking the budget.
GENERAL TERMS & CONDITIONS

Placing an order with California Umbrella constitutes an acceptance of the terms and conditions described below. Please read carefully.

ALL ORDERS

All orders:
To ensure that your order, replacement, or warranty replacement is processed without delay we require:
1. A written purchase order from an authorized buyer including the purchase order number, if applicable.
2. Ship date and specific shipping instructions.
3. Our item style number, frame color (if applicable), fabric number, type, and color.
4. Quantity of each style.
5. Customer’s name.
6. Billing and Shipping Addresses (if different).

Changes/cancellations:
Request for cancellations and/or changes of product must be received within five (5) business days after receipt of order, exception for cancellations due to in stock items. Orders that do not follow these guidelines will be charged a Standard 30% Re-stocking fee.

Other fees:
Non-warranty repairs for fabric only are subject to a labor charge of $20.00 per hour plus applicable parts, inbound and outbound freight charges apply. Replacement parts with discounted prices will be provided for non-warranty frames and parts plus inbound and outbound freight charges apply. $10.00 drop ship fee will be added to each drop ship order. $45.00 service charge will be assessed on any returned check.

Warranty
California Umbrella honors the following warranty to the original purchaser, based on use in direct environments only, non-commercial items are not warranted in commercial applications. For up to 90 Days from the date of consumer purchase Sunline brand products will be free from defects in original material and workmanship. For up to (1) year there is a limited warranty on California Umbrella brand frames, that they will be free from defects in original material and workmanship. This warranty extend to 3 (three) years on all California Umbrella Umbrella Brand Fiberglass Ribs, that they will withstand complete breakage in stable climate conditions. California Umbrella offers a limited warranty for fabric used to create covers, (1) Year for Olefin Fabrics, 4 (four) years for Pacifica Fabrics, 5 (five) years for Sunbrella Fabrics, that these fabric covers will withstand significant color fade and material not under stable climate conditions. Significant color fade amounts to more than 25% change in original color. Material Workmanship is covered for 90 days from receipt by the original owner, material wear caused by exposure to windy climate conditions, usage over time, and neglect of care, are specifically excluded from coverage under this warranty. All Umbrella Bases in the California Umbrella Line are offered with a 90 day warranty against failure due to corrosion, to the original owner only, unless otherwise noted by a representative of California Umbrella and confirmed at the time of purchase, in writing, that the base is new and not previously covered by a warranty. Items not covered by this warranty will be void when an Umbrella base is used at a commercial application without prior written inclusion of coverage for a specific application included on a clearly written and accepted purchase order. It is at the sole of California Umbrella to repair, replace, or provide credit to account for product during the warranty period. Please contact us with any warranty issues and we will issue a return authorization number. This warranty does not provide coverage or reimbursement for shipping costs, California Umbrella does not offer delivery services, or warranty for any shipping service. California Umbrella can arrange for shipping services to be rendered on behalf of an original owner if it is requested, at a charge to the original owner determined at the time of shipment. It is the receiving party's responsibility to inspect a shipment for damaged or defective items. California Umbrella will only assume the cost of shipping on items that arrive damaged or defective in original material and workmanship in the initial shipment, and only up to 15 (Fifteen) days after receipt of goods. Items that arrive damaged by the freight provider are not covered under California Umbrella's warranty. Any recovery for items damaged by a freight supplier must be addressed to the freight supplier. After the inspection period of time has lapsed, this warranty does not provide for any shipping costs for defective items, inbound and outbound freight charges apply for any warranty replacement that requires it. No warranty or returns will be granted without an approved return authorization number. Specifically excluded from this warranty are all failures caused by neglect of necessary care; unreasonable use; unexpected acts of nature (hurricanes, tornadoes, tropical storms, and any damage caused by wind). Original owners are responsible for safe storage of their Umbrellas at all times, especially when the climate reaches unsafe conditions. This warranty does not provide coverage for reimbursement of loss of use, time, inconvenience, or any other possible costs associated with the use of a defective or damaged item.

SHIPPING
California Umbrella does not offer delivery service. All customers must take delivery of their orders F.O.B. Pomona, California. California Umbrella will act to arrange for shipping services at the request of a customer, however, the customer is responsible for all charges, risks, and liabilities associated with using a third party freight carrier to take delivery of their order, all scheduled shipments will be at the factory's convenience. The only shipping costs that California are directly responsible for are shipping costs that occur as a result of fulfilling the warranty specified for the items in the customer's order. Once orders have been received by a freight shipping, delivery has been taken by the customer and all lead times are considered complete. Tracking information will be supplied to the customer only after delivery has been taken and only upon request. Shipping lead times are specific to the items ordered and will vary greatly based on the time of year, the quantity ordered, and specific items ordered. The general in-season lead time on all standard product orders between March 15th and August 30th is ready for shipping. F.O.B. Pomona, California, within 20 business days of the receipt of order; this lead time is subject to change based on the specific details of the order. Out of Season orders have a general lead time, ready for shipping, F.O.B. Pomona, California, within 15 business days of the receipt of the order; this lead time is subject to change based on the specific details of the order.

Early buy: Orders that are placed out of season for delivery within season will be ready for shipping, F.O.B. Pomona, California within 15 business days of the requested ship date. Specialty/custom orders ready for shipping, F.O.B. Pomona, California, within 25 business days of the receipt of order.

Express service: Optional express service can be requested for faster delivery, a $40.00 charge per item will be added. The date requested must be approved by California Umbrella before any work can be done on the order. Express service is not guaranteed, orders will be scheduled for shipping, F.O.B. Pomona, California within 10 business days from the day we receive the necessary fabric, if the Express service delivery cannot be met, the charge for service will be credited back to the customer, and the Customer will be able to either take delivery upon completion of the order, or they may choose to cancel the order with a 30% restocking fee.

Inventory status and a date specific for shipping will be provided to the customer upon request only. California Umbrella will make every reasonable attempt to meet the lead time as specified in these terms and conditions, however unexpected acts of God, labor shortages, natural disasters, weather, and any other unforeseen interruptions of service beyond our prediction or control may impact the ability of California Umbrella to achieve delivery by the prescribed lead times both in and out of season. California Umbrella shall not be liable for any damages or penalties arising from such causes. California Umbrella will offer the delayed orders for delivery at the first possible date in our normal operating schedule, Monday through Friday. California Umbrella reserves the right to hold or cancel any order at our discretion without any penalty or damages due. Express service for 50 pieces or more please contact us for details and additional terms. Due to the custom nature and limited quantities of items offered, California Umbrella may not be able to complete an order. In such an event, the balance of the order will be placed on back order, and it will be ready for delivery at a subsequent time or times. There will be no restocking fee for items cancelled from an order that has been back ordered.

CREDIT TERMS
California umbrella, inc. offers standard terms determined by a customer’s credit information, order history, and other information not listed in these terms and conditions. Standard terms are due on receipt for all initial customer orders, for subsequent orders where credit has been approved by California Umbrella the standard terms are net 30 days to an authorized dealer. Other terms may be applicable and will be indicated on the sales order acknowledgment and invoice. Credit terms do not apply to container orders. All orders are subject to credit approval and acceptance. No deductions or debit memos are accepted. A late charge of 10% will be added to invoices that are over thirty (30) days past due. The company reserves the right to increase, reduce or withdraw open account privileges at its sole discretion at any time without prior notification. A service charge of 2% per month where permitted by law, will be assessed to all past due invoices. Invoices are considered past due thirty (30) days after the due date listed on the invoice. A 3% charge will be added to all credit card transactions.
